WEBINAR:
WHEN TO THINK ABOUT
A POSSIBLE EOE?

Eosinophilic Esophagitis (EoE) is a chronic disorder of the oesophagus. EoE is a relatively 'new' disease that has been diagnosed more and more frequently in recent years. The disease is characterized by a strongly increased number of white blood cells (eosinophils) in the esophagus. During this **1 hour webinar** we will focus on the recognition and diagnosis of EoE. The organization of this webinar was made possible with the support of Mead Johnson / Reckitt Benckiser.

SPEAKERS:

Prof. Dr. Saskia Vande Velde, *Head of Clinic Pediatric Gastroenterologist at the Universiteit Ziekenhuis UZ Gent, Belgium, member of the ESPGHAN working group EoE*

Dr. Olivia Bauraind, *Pediatric Gastroenterologist at the Clinique CHC MontLégia, Liège, Belgium, member of the ESPGHAN working group EoE*

MODERATOR: Prof. Dr. Françoise Smets, *Senior Registrar, Pediatric Gastroenterology and Hepatology, Cliniques Universitaires Saint-Luc, UCLouvain, Brussels, Belgium*

ACCREDITATION: This webinar is accredited.

LOCATION: Your computer.
